Preaching Environmentally Within the Revised Common Lectionary

While depending on the Lectionary texts, there are a number of helpful sites to help pull together eco-justice themes with the texts given within the liturgical year.

Christian Ecology Link is a multi-denominational organization from the United Kingdom for people concerned about the environment. They have provided Ecological Notes on the Common Worship Lectionary by Keith Innes at http://www.christian-ecology.org.uk/econotes-index.htm#index

The Environmental Stewardship Commission of the Episcopal Diocese of Minnesota (MEESC) has collected environmental and earth-centered reflections, sermons, and commentaries on the lectionary readings. These notes can be found at http://www.env-steward.com/lectnry.htm
