Worship Outside

The opportunity to worship outside provides a space for congregation members to encounter nature, to realize the holy is experienced outside of the sacred space of the sanctuary and to connect worship with creation care.

Ideas for outdoor worship:

- Begin worship with a procession around the church building
- Have an entire service in a open space on your church campus.
- Go to a nearby park or to a body of water for a worship service.
- Consider doing a prayer-walk through a nearby arboretum or nature sanctuary.
